

## ACTIVITY: PLANNING FOR ANALYSING DATA AND DEVELOPING SOLUTIONS

Discuss the steps listed in the **what** column. Create a plan to accomplish the 'what' by listing **who** is responsible and **when** it will happen. Be specific, and include your results in your team's action plan.

WHAT	WHO	WHEN
1. Produce Big 5 data reports for PB4L-SW team meetings (including, for example, graphs relating to the Big 5).		
2. Analyse the reports to arrive at one or more precise problem statements (see the 'Big 5 data review guide' above).		
3. Brainstorm solutions and how to implement them.		
4. Share data with staff, students, and the community to show progress.
