

PBIS Leadership: Teaching, Modeling, & Encouraging Effective Systems Practices

PBIS Leadership: Teaching, Modeling, & Encouraging Effective Systems Practices

Terrance M. Scott
University of Louisville

**At its heart, PBIS is about
changing adult behavior in a
way to maximize the
probability of student success**

It's about what we do!

©Scott, 2014

A Basic Logic

Adults Affect School Climate by Facilitating Student Success

David Berliner (1990) suggests that the relationship between engaged time and student achievement *"has the same scientific status as the concept of homeostasis in biology, reinforcement in psychology, or gravity in physics."* (p. 3)

- Berliner, D. C. (1990). What's all the fuss about instructional time. *The nature of time in schools: Theoretical concepts, practitioner perceptions*. New York and London: Teachers College Press, Teachers College, Columbia University

Robert Pianta describes why teachers must create engagement: *"The asymmetry in child-adult relationship systems places a disproportionate amount of responsibility on the adult for the quality of the relationship"* (p. 73).

- Pianta, R.C. (1996). *High-risk children in schools: Constructing sustaining relationships*. New York, NY: Routledge.

©Scott, 2014

PBIS Leadership Role: Process

1. Present and discuss PBIS in a concrete and logical manner
2. Tie prediction and prevention together as a single process
3. Be an instructional leader – support teaching
4. Model and encourage positive feedback
5. Teach and model how to respond to misbehavior
6. Lead monitoring efforts as a part of instruction rather than an add-on
7. Share monitoring data with school and use for making instructional decisions

©Scott, 2014

PBIS Leadership Role #1

**Present and discuss
PBIS in a concrete
and logical manner**

©Scott, 2014

The MTSS Model

Begin with Practices that provide the highest probability of success across all and individualize more as data identify non-responders

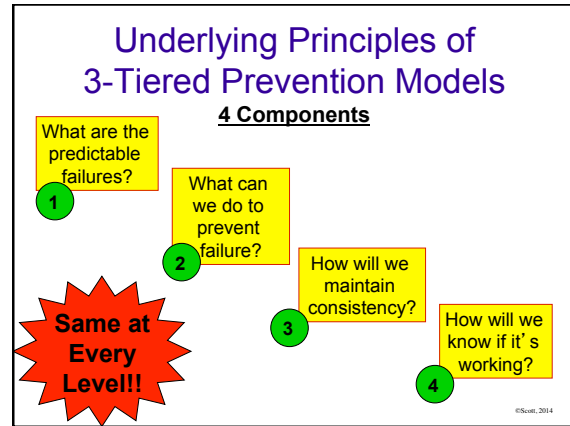

Things that provide the best probability for success: simple and logical

Even more intensity of the same interventions but in a more individualized manner & with assessment to consider alternative interventions

More intensity of the same interventions among those who have not responded to the normal dose & assessment to consider alternative interventions

©Scott, 2014

PBIS Leadership: Teaching, Modeling, & Encouraging Effective Systems Practices

Obtain 80% Staff Consensus

Being a PBIS School means that I agree to:

1. Provide input in determining what our school's problems are and what our goals should be
2. Make decisions about rules, expectations, and procedures in the commons areas of the school as a school community
3. Follow through with all school-wide decisions, regardless of my feelings for any particular decision
4. Commit to allowing performance toward our goals to determine future plans (data drives decisions)

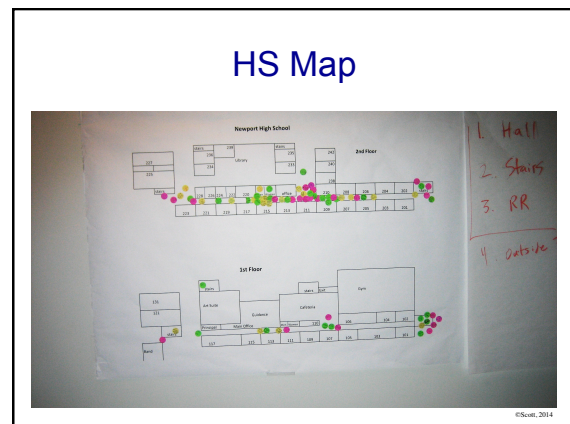

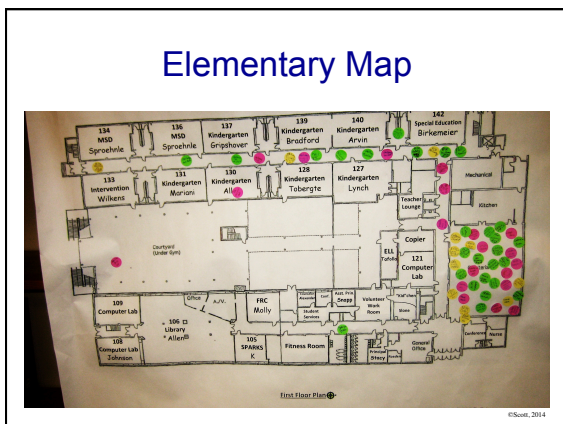

©Scott, 2014

PBIS Leadership Role #2

Tie Prediction and Prevention Together

- Facilitate unique prediction of problem behaviors for the school
- Address each predictable problem with a simple strategy

©Scott, 2014

PBIS Leadership: Teaching, Modeling, & Encouraging Effective Systems Practices

Predictable Problems Summary

Lunchroom			
When	Who	What	Why
At arrival/dismiss During lunch	All	Running, yelling, pushing, messes, poor manners, no clean-up, loud	-Slow transitions mean back-ups -Table to lunch rush -Inconsistent lunchroom aid tolerance -All are punished for the actions of few

Hallways and Walkways			
When	Who	What	Why
Transitions – homeroom to portables	All	Run, trip, hit, wandering, slow, safety issue, don't know which kids should be there	Insufficient supervision, no uniform routine

©Scott, 2014

Prevention Strategies

- **Teaching Rules**
 - agreed upon by team - willing/able to enforce
 - posted, brief, positively stated
- **Developing and Refining Routines**
 - avoid problem contexts, times, groupings, etc.
 - consistent
- **Considering Physical Arrangements**
 - clear physical boundaries
 - supervision of all areas

©Scott, 2014

Prevention Strategies

Rules – What do we want the students to do to predict success?

- When, where, why
- Teach, encourage, remind, acknowledge

Routines and Arrangements – What will we do to increase likelihood of student success?

- Avoid problem contexts, times, groupings, etc.
- Consistent procedures and prompts
- Engage students
- Where should you and students be to predict success?
- Active supervision of all areas
- Consistent consequences

©Scott, 2014

Finalize Agreed Upon Solutions

- What do we want the students to do? **Rules**
- What will we do? **Routines and Arrangements**

Ridgeport High School
Hallways
Rules:
1. Walk
2. Appropriate Language
3. Hands and Feet to Self
4. Keep Moving
Routines/Arrangements:
1. Stand in doorway during passing
a. As much as possible
2. Provide positive prompts before releasing students from class
a. Reminders about appropriate behaviors in hallway
3. Keep doors to stairway open
4. Have sweeper run through stairways as well as hallway
5. Acknowledge students following rules
a. Verbal praise and encouragement
6. Correct students who behavior inappropriately

**** Should never have more student than adult behaviors!**

PBIS Leadership Role #3

Be an instructional leader: Facilitate the development of teaching plans for behavior

©Scott, 2014

Effective Instruction

(The easiest thing we control that has good probability for success when applied proactively)

Explicit

- Show and tell students what it is that is expected
- Guide and monitor to facilitate success

Engaging

- Opportunities to respond
 - Group (choral) or individual responses
 - Questions
 - Requests for student behavior

Frequent Feedback

- Verbal and Gestural
 - Positive and Negative
 - Correction

Students with teachers using the least amount are more than **27% more likely to be off task** and more than **67% more likely to be disruptive**

©Scott, 2014

PBIS Leadership: Teaching, Modeling, & Encouraging Effective Systems Practices

Extrapolating Across the School Year

Teaching

Assuming 5 hour school day, 20 day school month, and 180 day school year

Not teaching = wasted instructional time	% of 15 min "Not Teaching"	Instruction Time Not Used (no teaching or monitoring)			
		Per Hour	Per Day	Per Month	Per Year
Elementary	10%	6 min	30 min	2 days	18 days
Middle School	10%	6 min	30min	2 days	18 days
High School	28%	16.8 min	1.40 hours	5.6 days	2.4 months

Definition of Not Teaching:

Teacher is not engaging students and is involved in independent task with no interactions with student.

Teaching Rules

Keys to Teachable Rules

1. Anchor all rules to 3-5 big ideas – School-Wide
2. All rules are taught as examples of the big ideas
3. Organize by location
 - Try for max 5 rules per location
4. Teach to students directly and explicitly
5. Revisit instruction throughout the year – acknowledge compliance

EXAMPLE

Respect Yourself

- in the classroom (do your best)
- on the playground (follow safety rules)

Respect Others

- in the classroom (raise hand to speak)
- in the stairway (single file line)

Respect Property

- in the classroom (ask before borrowing)
- in the lunchroom (pick up your mess)

©Scott, 2014

Engage Students

©Scott, 2014

Engagement

	τ_{00} Between-school variance	σ^2 Within-school variance	$\tau_{00}/(\tau_{00}+\sigma^2)$ ICC	Reliability estimate
Group OTR	0.033***	0.603	0.051	.557
Individual OTR	0.001	0.134	0.009	.182
Positive feedback	0.000	0.028	0.008	.16
Negative feedback	0.000**	0.004	0.033	.443

Note: ICC = Intraclass Correlation Coefficient.

* $p < .05$, ** $p < .01$, *** $p < .001$.

- Group OTR predictive of academic achievement
- Negative Feedback predictive of school suspension
- Differences across schools are at the teacher level (Hirn, Hollo, & Scott, in review)

©Scott, 2014

PBIS Leadership: Teaching, Modeling, & Encouraging Effective Systems Practices

 Here are the three R's for lunchtime in the cafeteria:

Rule:	Behavior:
I am respectful . 	<ul style="list-style-type: none"> • Raise hand for help • Use quiet voices 
I am responsible . 	<ul style="list-style-type: none"> • Eat your lunch • Keep hands, feet & food to yourself
I am ready to go . 	<ul style="list-style-type: none"> • Clean up messes • Line up quietly • Face front 

©Scott, 2014

 Here are the three R's of our Fifth Grade classroom:

Rule:	Behavior:
I am respectful . 	<ul style="list-style-type: none"> • Raise my hand • Listen to others • Stay in my personal space
I am responsible . 	<ul style="list-style-type: none"> • Follow Directions • Complete my assignments • Clean up after myself
I am ready to learn . 	<ul style="list-style-type: none"> • Be prepared for class • Always do my best • Learn from my mistakes

©Scott, 2014

Dare to be Dynamite Dragons!

Respectful
Responsible
Ready

Villa Dragons Dare To Be... Everywhere!

Safe

- Keep yourself and others free from harm

Responsible

- Be prepared
- Follow directions
- Accept responsibility for your actions and words

Respectful

- Respect yourself
- Respect others
- Respect property

©Terrance M. Scott, 2014

 **Respect**
Be kind and considerate to your school community (peers, staff, classroom, etc.).

 **Responsibility**
Be accountable for your actions.

 **Safety**
An environment free of harm and injury to yourself

©Scott, 2014

Chesterbrook Three R's

	Readiness	Respect	Responsibility
 Hallways <ul style="list-style-type: none">• Stand properly in line• Have materials	<ul style="list-style-type: none">• Quiet voices• Quiet bodies• Show courteous behavior to others	<ul style="list-style-type: none">• Walk directly to your destination• Be aware of your surroundings• Maintain personal space	
 Cafeteria <ul style="list-style-type: none">• Bring lunch or money• Use bathroom and wash hands before	<ul style="list-style-type: none">• Inside voices• Practice good manners• Follow cafeteria rules	<ul style="list-style-type: none">• Raise hand for help• Maintain personal space• Clean your space	
 Playground <ul style="list-style-type: none">• Have a plan• Bring your materials• Listen for your teacher	<ul style="list-style-type: none">• Follow playground rules• Include others and share equipment	<ul style="list-style-type: none">• Bring in everything you take out• Use problem solving strategies	

©Scott, 2014

Practice Daily (spaced trials)

©Scott, 2014

PBIS Leadership: Teaching, Modeling, & Encouraging Effective Systems Practices

PBIS Leadership Role #4

Model and encourage positive feedback as a part of the school's culture

©Scott, 2014

Acknowledgement!

Acknowledge Success

- Level 1: Verbal Praise
 - Age appropriate
 - “thanks” “I appreciate” “I’m impressed” etc.
 - Delivered with specificity “you did XX correctly”
 - Mix up use of superlatives
 - Exactly, super, awesome, perfect, thank you, etc

©Scott, 2014

Acknowledge Success

- Level 2: Access to Privilege
 - Things that already exist and are used
 - Make contingent

Acknowledge Success

- Level 3: Public Acknowledgement
 - For those who like it
 - For those deserving more
 - Free

PBIS Leadership: Teaching, Modeling, & Encouraging Effective Systems Practices

Acknowledge Success

- **Level 4: Token Reinforcement**
 - For specific behaviors, times, & contexts based on data
 - Token may be the reinforcement for young children
 - Trade for existing privileges
 - Drawings and Chances to Win
 - More tokens = better chance

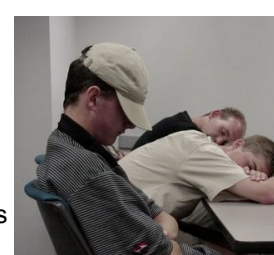

Teach and model how to responding to misbehavior

- use correction
- consider function
- repeated failure signals need to change instruction

PBIS Leadership Role #5

Teach Effective Consequences

- Does this look like a negative consequence for these students?
- Consequences don't need to be big to be effective
- Effective consequences for negative behavior make behavior decrease

Correction

Feedback that behavior is inappropriate

- "is that the right way?"
- "is there a better way?"
- "are you being respectful – why not?"

Re-teach appropriate behavior

- "what is a better way?"
- "what would it look like if it was done better?"
- "what is a more respectful behavior?"

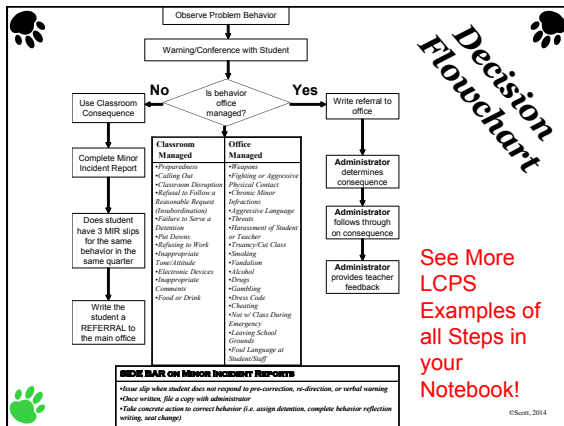

Re-teach appropriate behavior

- "Show me that --- thanks – remember to do that."

High Probability Teacher Responses

- Provide extra praise to others
- Begin with a question or statement of why it is a problem – lead to demonstration of correct way
- Give very specific directions (redirection)
- Private talk after class
- Change seat (assigned seat)
- Make-up work for time off-task
- Engage in other ways (redirect)

PBIS Leadership: Teaching, Modeling, & Encouraging Effective Systems Practices

PBIS Leadership Role #6

Lead monitoring efforts as essential part of instruction – not as an add-on

©Scott, 2014

Evaluative Decision Making

Big Idea: We need data to know if implementation of our plans is worth continuing

- We must agree as to the important behaviors**
 - Agree on definitions of behavior and other variables
 - It has to be simple enough to not burden us**
 - Can typically take no more than 1% of daily staff time
 - It has to be useful and reported**
 - must be made public and decisions shared with all stakeholders
- ©Scott, 2014

PBIS Leadership: *Teaching, Modeling, & Encouraging Effective Systems Practices*

Effective Leadership

- Practice what you preach – be a model for the effective practices you wish to encourage
- Don't ask people to do more than you do – model effort and expect the same from others
- Treat people with respect – be a teacher & don't be afraid to admit mistakes
- Have a plan for continuous improvement – involve all in monitoring progress

©Scott, 2014

Big Ideas

- Student behavior won't change until adult behavior changes -- **Adults Matter!**
- ALL behavior change is an instructional process -- **Instruction Matters!**
- It's all about probability – what's the simplest way to make a difference in the success:failure ratio of a student?
-- **Practices Matter!**
